

The Service task of Science: “reveal the essential spirituality of all scientific work...motivated by love of humanity...which brings to light the glory of God through the medium of His tangible world and His works.” -Discipleship in the New Age, Vol. I, p. 39

The Science (Pathway) of Service

This science grows naturally out of the successful application of the sciences of the antahkarana and meditation. With the linking of soul and personality, the light of the soul pours into the brain consciousness, resulting in the subordination of the lower to the higher. This identification produces a corresponding activity in the personal life and the activity we call service.

Materialism

Materialistic science searches for Truth through the outer objective reality of things.

Spirituality

Deals with the Science of Truth and subjective reality in which Life, Consciousness and Form are inter-connected.

Question:

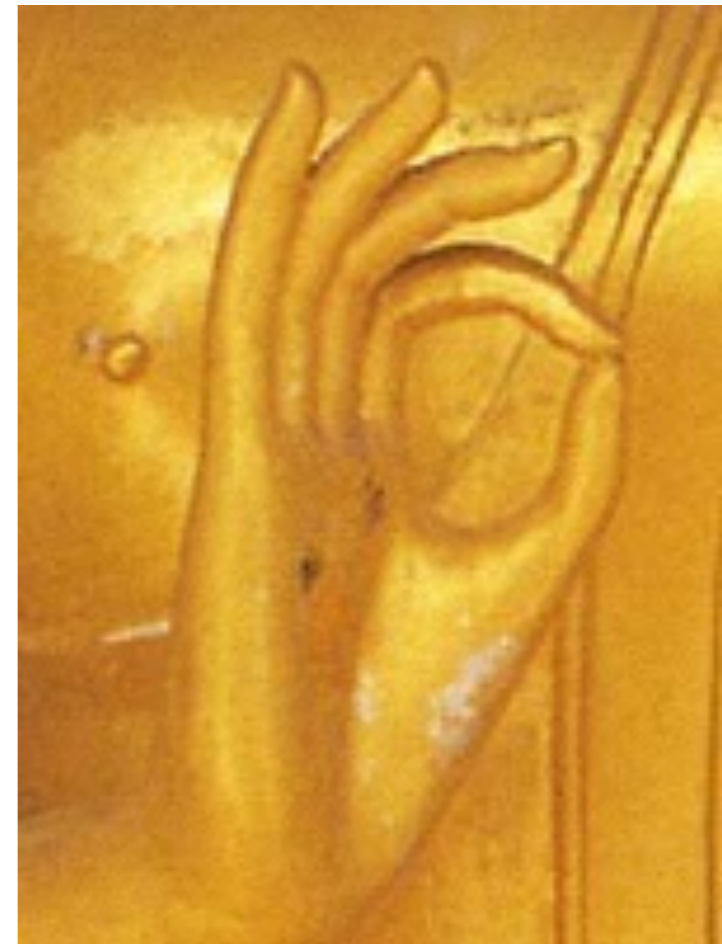

“At this dawning of the Age of the Soul, how, in practical ways, can Sacred Geometry, Color and Sound be used to help remove impediments within us and help us welcome into our midst “Those Who embody Love, Wisdom and Spirit Power on our planet?”

-LDI, Friday Group Forum

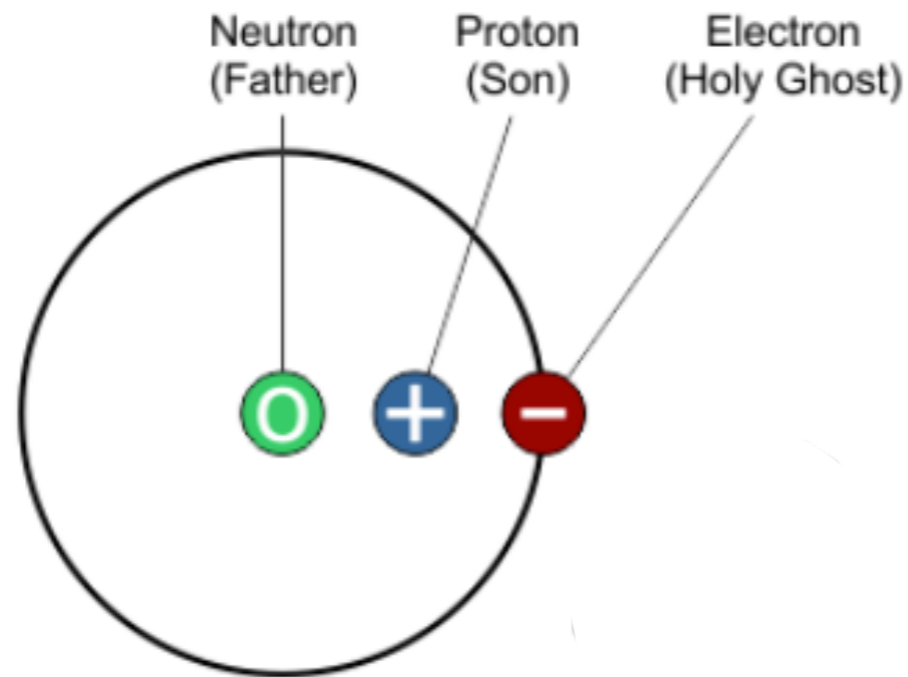

Response:

“It is in the shift of consciousness to planes of greater refinement that explorations of these phenomena [i.e., Sacred Geometry] are most valuable. The value lies not as much in the particularities of the studies themselves as in what they are pointing toward in the march of evolution. Lying at the mid-point between visible and invisible worlds, they are like Sirens beckoning humanity to delve deeper into cosmic mystery in order to discover more of Reality. In that regard, the study of these subtle spheres helps set the stage on which the Inner Brotherhood of Light is preparing to externalize.” -

"One **God and Father** of all,
who is **above all, and
through all, and in you all**"

Proton Standing Next to Neutron

Acts 7:56

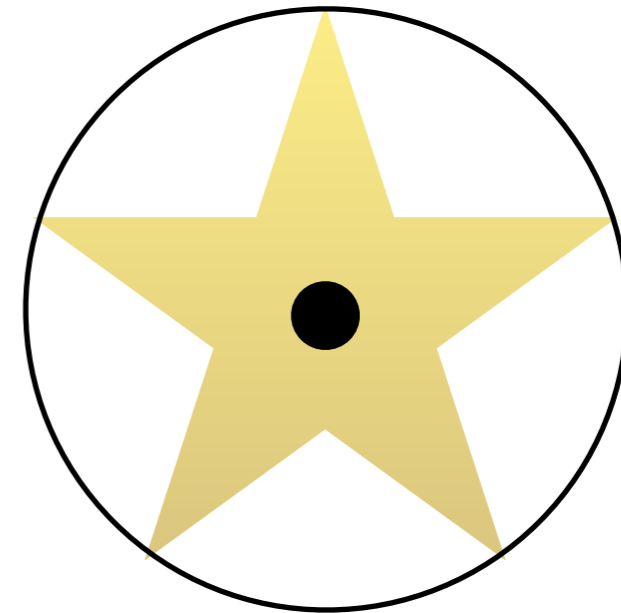

"And said, Behold, I see the heavens
opened, and the **Son of man**
standing on the right hand of God"

Electron = Electricity/Power

Acts 1:8

"But ye shall receive **power**, after that

The Dot in the Circle

Dot:

"There is naught but energy, for God is Life"

- Esoteric Healing, p. 585

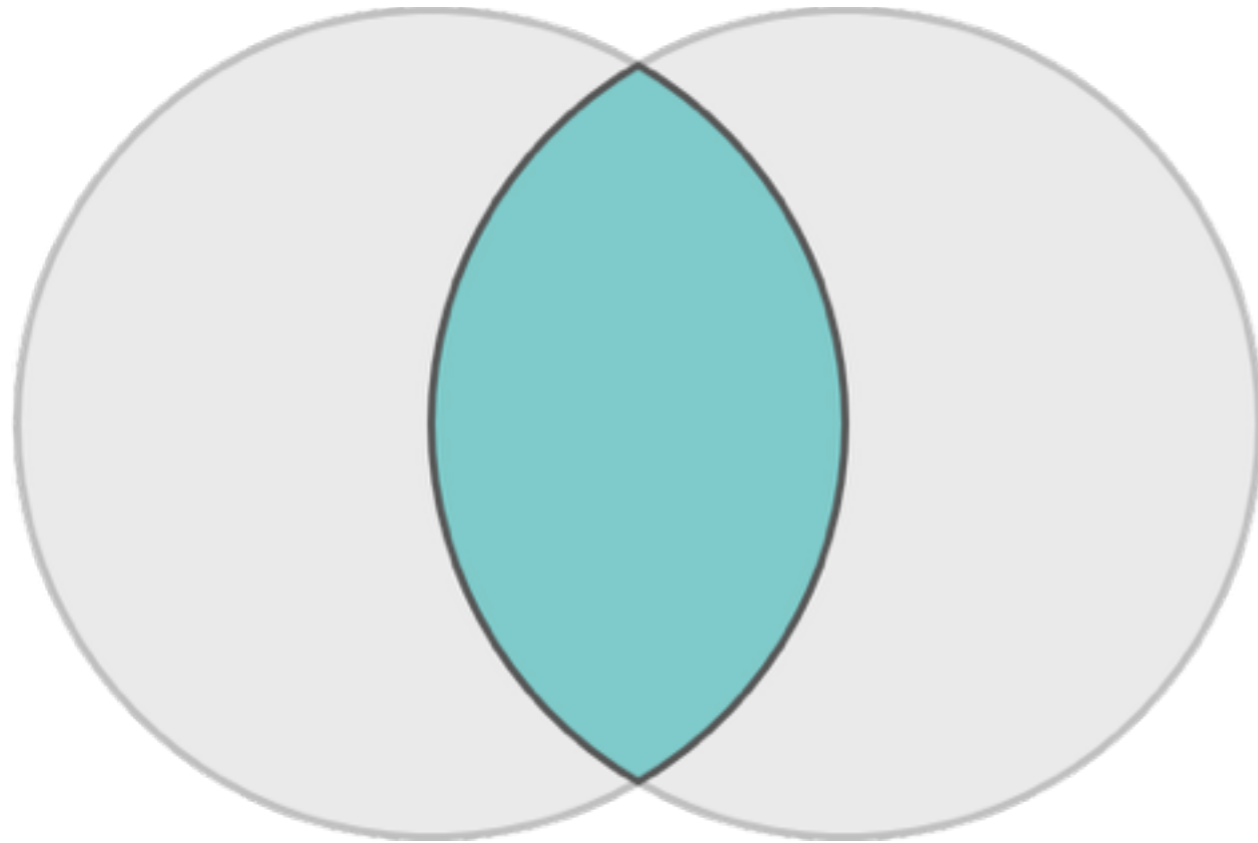

"One Life pervades all forms" -Treatise on Whiter
Magic, p. 8

Circle:

*Energy as manifested form, whether it be an
expanding universe or an atom*

The Space between the Dot and Circle:

*The union of spirit and matter, the five pointed
star, perfected human consciousness capable of
identification with the Whole*

The Vesica Piscis

The vesica piscis is the central almond or petal shape created by the intersection of two equal circles of common radius to represent the dual impulses of creation.

Chartres Royal Portal

Christ the Spiritual Man, “*I Am The Light Of The World*”. The Triad, the expression of the Father, the Monad. “The Triad: perfect at-one-ment, the germinal spirit containing the potentialities of divinity.” -Initiation, Human and Solar, p.19

Statement # 1:

The eternally present Life of God expresses Synthesis, Consciousness and Light through geometry and number, the bridge between Spirit and Matter.

Statement #2:

The right use of Geometry lies in the “making of man consciously one:—

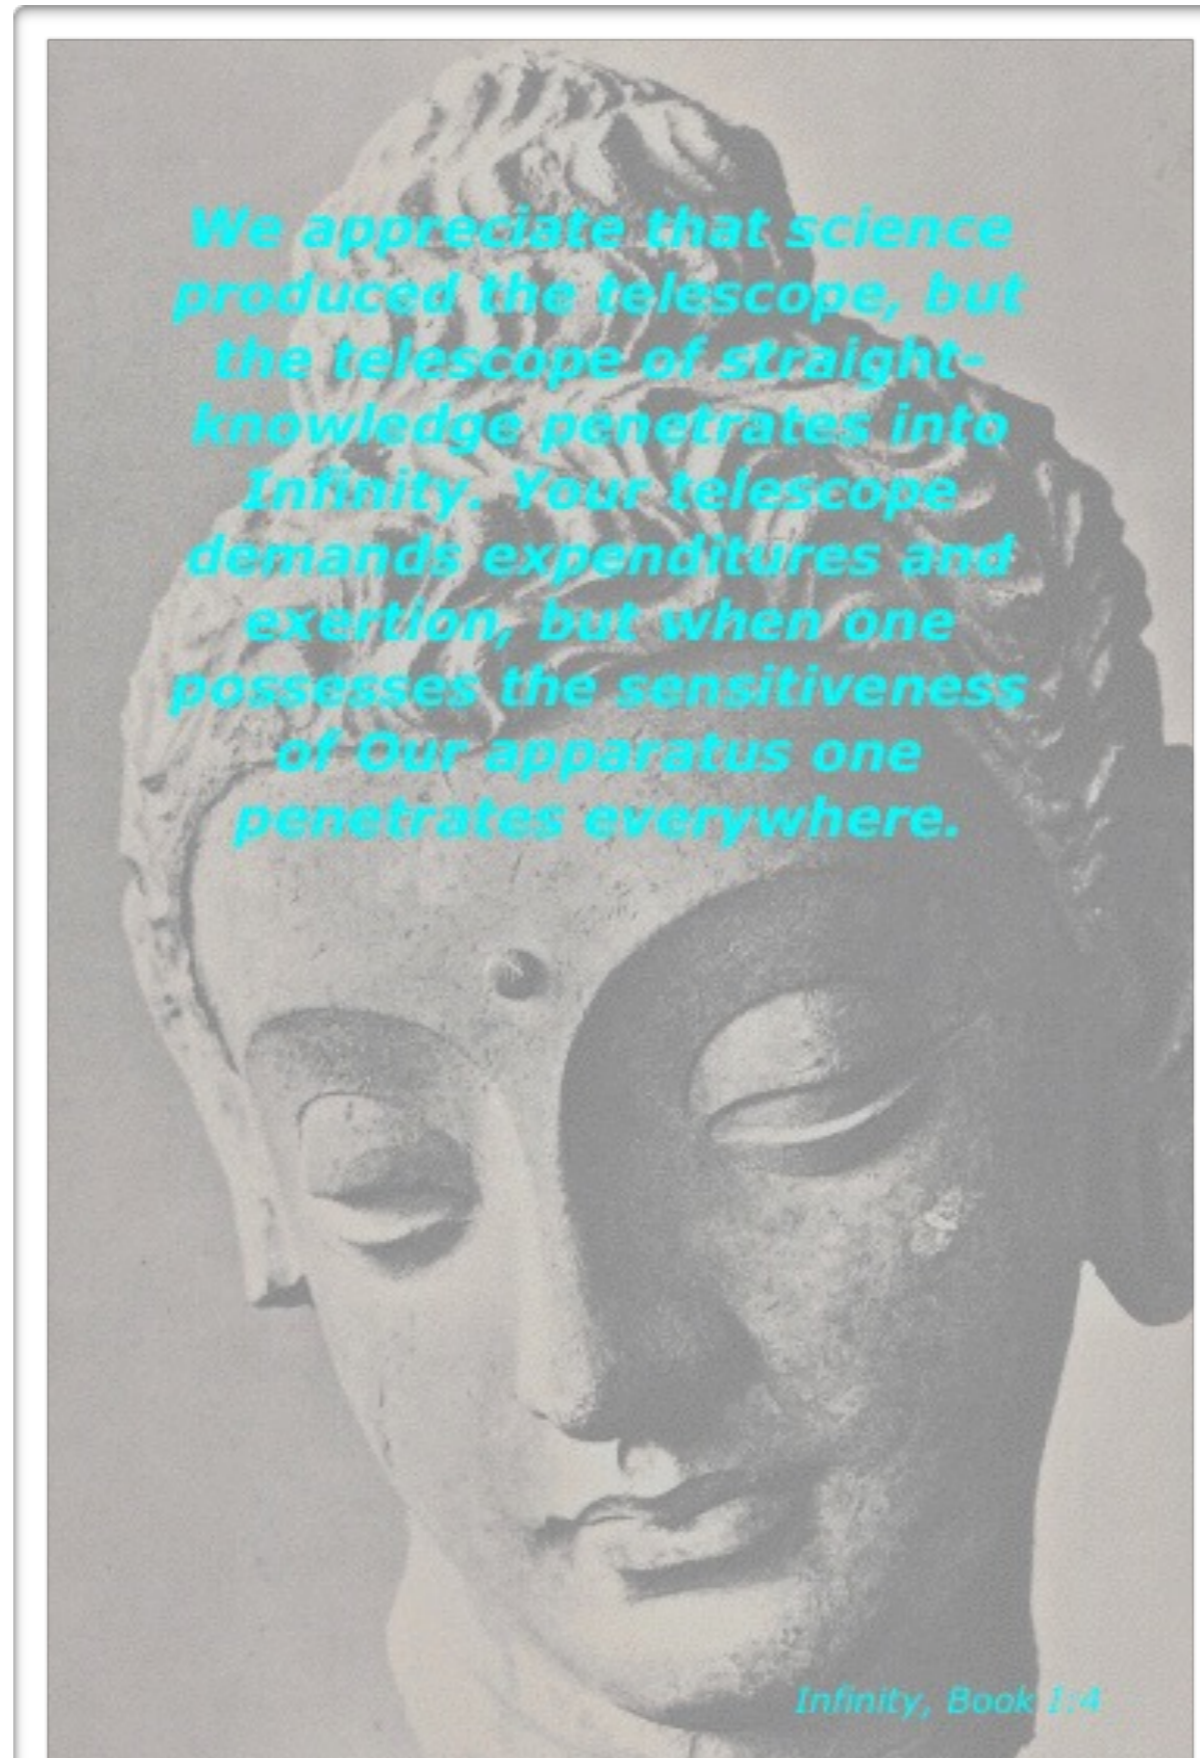

- First: With himself, and those in incarnation with him.*
- Second: With his higher Self, and thus with all selves.*
- Third: With his Spirit, or "Father in Heaven," and thus with all Monads.*
- Fourth: With the Logos, the Three in One and the One in Three.”*

quote: Initiation, Human and Solar, p.19

Statement # 3:

Sacred Geometry teaches precision, accuracy, control and rhythm which are also Aquarian soul qualities needed when working with energies.

- **The Science of Karma** — every cause has its effect and every effect has its cause.
- **The Science of Mind** — thoughts are responsible for the conditions of our lives and we are responsible for the very thoughts that we produce.
- **Spiritual Alchemy** — all is energy and the art of transmutation — the translation of a lower vibrational state to a higher state.
- **Sacred Geometry** which preserves the truth of the One Life.

We appreciate that science produced the telescope, but the telescope of straight-knowledge penetrates into Infinity. Your telescope demands expenditures and exertion, but when one possesses the sensitiveness of Our apparatus one penetrates everywhere.
